

LEVITATTE

LEARNING & DEVELOPMENT

Empowering Individuals. Transforming Organizations.

Patients judge what they can feel, not what they can't see.

www.levitatte.com

BENGALURU, INDIA

— THE MOMENT THAT MATTERS

No one arrives at a hospital on their best day. How you meet them is what they remember.

Patients cannot see your clinical excellence — they feel it in every welcome, every wait explained with care, every worried family made to feel human.

— THE GAP PATIENTS FEEL

They can't see the medicine. They feel the manner.

Clinical work happens where patients rarely see it. What they judge is the welcome, the waiting, the words — and the warmth behind them.

01

The first impression

Reception, admissions and the ER set the tone in seconds — often while a patient is frightened and unsure.

02

Anxiety, grief and waiting

Delays, bills and hard news land harder on people already afraid — empathy, or its absence, is remembered.

03

Warmth worn thin

Stress and burnout quietly drain the kindness even skilled, caring staff want to give every patient.

04

What the world hears

One difficult experience can outlast great care — in a lingering review, a lost referral, a family's trust shaken.

— THE OPPORTUNITY

A kindness rivals can't copy.

Equipment and talent can be matched. The feeling of being truly cared for is far harder to copy — and patients never forget it.

Trust and loyalty

When people feel safe and seen, they return, they refer, and they speak of you with warmth.

Calmer floors, fewer flare-ups

Confident, empathetic teams de-escalate early, easing complaints and the strain they place on everyone.

A reputation to choose

For patients who can choose their hospital, how they are treated is often what decides — and what they remember.

— ABOUT LEVITATTE

Luxury service, brought to the bedside.

Levitatte is a Bengaluru-based luxury training company that shapes how people are treated. We bring the standards of the world's finest service brands to healthcare — reframed for the tenderness care demands.

“

To empower individuals and organizations for exceptional client management success.

OUR MISSION

WHAT WE STAND FOR

Genuine Connections

We build trust through respect and sincere communication — the heart of how patients want to be met.

Continuous Growth

Curiosity and innovation keep teams learning, so care stays warm long after the workshop ends.

— THE FOUNDER

Kavitha Pillai

FOUNDER · MANAGING DIRECTOR & HEAD OF TRAINING

Kavitha Pillai has spent 25+ years perfecting the art of luxury service, public relations and personality development — training people to make others feel valued. She founded Levitatte to bring that craft to the places it matters most.

A Master in NLP and Organizational Behavioral Psychology, her expertise spans grooming, communication, client-relationship management and luxury brand management. In healthcare, she turns that depth into warmth patients can feel.

SIGNATURE PROGRAMS

Eight programs, reframed for care

Eight signature Levitatte programs — every one focused on human interaction, presence and communication, never clinical skills.

01

Grooming & Personality Development

A calm, confident, well-presented presence that reassures patients and families on sight.

02

Professional Etiquettes

The courtesies of care — respectful greetings, warm handoffs and dignity at every step.

03

Understanding Client Needs

Reading what patients and families truly need — spoken and unspoken — and responding with care.

04

Effective Communication

Explaining waits, costs and hard news clearly and kindly — within scope, always with empathy.

05

Handling Difficult Clients

Meeting anger, grief and grievances with composure — de-escalating and restoring trust.

06

Business Etiquettes & Networking

Poise with referring doctors, insurers and partners — the professional face of your hospital.

07

Cultural Sensitivity

Respecting every language, faith and background so each patient feels understood.

08

Nurturing Long-Term Relationships

Turning one good experience into lasting trust, loyalty and heartfelt word of mouth.

— THE LEVITATTE METHOD

How the warmth takes hold

Interactive workshops and NLP techniques, grounded in real hospital scenarios your teams face every day.

01

Immerse

We learn your floors, patients and pressures — from the ER desk to discharge and billing.

02

Practice

Teams rehearse real moments — a frightened patient, an angry relative, a hard delay — through role-play.

03

Reflect

Guided feedback and case studies turn each rehearsal into insight staff can use tomorrow.

04

Embed

Habits and shared language make warmth the everyday standard — long after we leave.

— WHY LEVITATTE

Not customer service. Human service.

A luxury-service pedigree, reframed for the tenderness of care — and delivered by people who love this work.

A world-class standard

We've trained teams at Porsche, Accenture and Toyota — reframed for the tenderness of care.

A real hospital pedigree

We've trained healthcare teams at Fortis and Cloud9 Hospitals — this is care we already know.

It complements clinicians

We support your nurses and staff, never critique them — making handoffs to clinicians warmer.

It cares for caregivers

Equipping teams for grief and grievance eases stress and burnout — and helps good people stay.

— THE PROOF

A standard you can trust

The same standards we bring to the world's finest brands — reframed for the tenderness of care.

— HOW WE WORK TOGETHER

From pilot to partnership

We start small — often one unit or department — prove the difference, then grow it across your hospital.

Discover

We listen to leaders and staff to understand your patients, pressures and goals.

Design

We tailor the programs and role-play scenarios to your departments and real situations.

Deliver

We run a focused pilot with one unit or department — hands-on, warm and practical.

Sustain

We track progress through observed behaviors, feedback themes and fewer escalations — then scale.

— WAYS TO BEGIN

Choose where to start

Three ways to bring hospitality-grade care to your teams — from a single department to your whole hospital.

SIGNATURE

The Front-Office Workshop

Where first impressions are made

- One team or department — reception, ER or OPD
- Interactive workshop with live role-play
- Focus on presence, empathy and etiquette

A FOCUSED START FOR ONE TEAM.

The Experience Program

Patient experience, across departments

- Multiple patient-facing departments
- All eight programs, tailored to each team
- Scenarios drawn from your real floors
- Progress tracked qualitatively

OUR MOST COMPREHENSIVE PROGRAM.

The Hospital Partnership

A culture of care, hospital-wide

- Hospital-wide patient-experience program
- Train-the-trainer for lasting habits
- Ongoing coaching and refreshers
- Shared language embedded across teams

BESPOKE; PRICING ON REQUEST.

— BEGIN THE CONVERSATION

Great care deserves to be felt.

Let's bring hospitality-grade warmth to every patient you serve. Start with one conversation — and one department — and feel the difference.

01

Book a discovery conversation with Kavitha.

02

Choose one department to begin — reception, ER or a ward.

03

Run a focused pilot, and feel the difference.

GET IN TOUCH

Let's elevate care.

We would be honoured to help your patients feel truly cared for.
